

Presentation, Meeting & Training Solutions

Whether you are looking to deliver a training module to clients or colleagues, seminar or conference, presentation or lecture; these solutions offer a range of flexible packages.

How it works!

Our Web-Presenter provides live, interactive content over the web. And all our solutions can utilise PowerPoint as part of your live and interactive training, meetings or presentations from single or multiple locations.

Flexible Content

Add resources, quizzes and polls. Create a series of modules or a curriculum. Include a combination of meetings, documents, files, videos and resources to effectively communicate to colleagues & team members.

Simple Delivery

The screen layout is easily configured for you to deliver your Company's content in a way that suits YOU. Includes comprehensive management control of participants includes statistical information about attendance and progress through your training and information modules.

Transparent Pricing

Each solution takes every element of your production into account with no hidden costs; Choose from **E-Learning**, **Webinar**, and **Web-Presentation / Meeting** plus a variety of additional options.
