

Live Event Solutions

Our Live Event packages have been designed for reliably delivering your event to a local or global audience across the web.

How it works!

Travelling to your venue, we film your event using a combination of film crew that suits your needs and budget. We host the recording on our specialist web servers, providing pay-per-view facilities where required. We also produce a Master DVD ready for duplication with all solutions in this package.

IDEAL FOR:

- o Presentations
- o Lectures
- o Speeches
- o AGMs
- o Forums
- o Conferences
- o Meetings
- o Concerts
- o Seminars

Transparent Pricing

Each solution takes every element of your production into account with no hidden costs; Select from **Platinum**, **Gold** and **Silver** Solutions, plus a variety of bespoke additions.

Bespoke Options!

Our Tag-ons allow you to tailor your own solution to suit your requirements perfectly. We can also output your event LIVE to screens across the venue.

We have recently worked with First Sight Media to webcast a high profile University event. Their approach to the requests that were made to them were highly professional and they were very calm despite being under stressful time restraints!

Platinum Event Solution

Great value for advanced coverage of your event where fast delivery is crucial!

Webcast your event LIVE instantly reaching delegates unable to attend the venue - 3 cameras with vision-mixing ensures viewers are kept interested!

This solution includes:

- 1 Vision Mixing Desk and Mixer
- 2 Camera Operators and Cameras
- 1 Fixed Camera
- One Day's Filming
- Live Webcasting (including 1 webcast technician)
- 2 Months archiving of your event on the web.
- 75 GB Bandwidth per month (up to 350 viewing hours)
- 1 Copy of your event on DVD with interactive menus

Ideal for:

- Presentations
- Lectures
- Promotions
- Speeches

Silver Event Solution

Intended for events with single speakers or limited action to be uploaded after the event.

Our Silver solution uses only 2 cameras and distributes your event using our almost live webcasting service for 1 month of hosting with up to 15 Gigabytes or 75 hours of bandwidth usage.

This solution includes:

- 1 Vision Mixing Desk and Mixer
- 1 Camera Operator and Camera
- 1 Fixed Camera
- Up to 2 Hours Filming
- Almost Live Webcasting
- 1 Months archiving of your event on the web.
- 15 GB Bandwidth per month (up to 75 hours)
- 1 Copy of your event on DVD with interactive menus

Ideal for:

- Presentations
- Lectures
- Speeches
- Concerts

Gold Event Solution

Designed for advanced coverage of your event, where delivery is not so urgent.

Using our ALMOST LIVE service, your event will be converted and uploaded to our specialist audio/video servers soon after the event at a time that suits your needs.

This solution includes:

- 1 Vision Mixing Desk and Mixer
- 2 Camera Operators and Cameras
- 1 Fixed Camera
- One Day's Filming
- Almost Live Webcasting
- 2 Months archiving of your event on the web.
- 75 GB Bandwidth per month (up to 350 viewing hours)
- 1 Copy of your event on DVD with interactive menus

Tag-Ons: Customise Your Solution!

In order for you to tailor a solutions to effectively suit your event, we have summarised the most popular additions in the form of our tag-ons. You can add as few or as many of each tag-on to customise your solution.

These include:

- Extra filming time
- Extra camera/operator
- Vision-Mixed slides
- Hosting of your video on the web
- Extra month's archiving
- Extra bandwidth
- ROM features
- Additional DVD Copies
